**SACRAMENTO UPDATE**

**STATUS OF LEGISLATION OF COUNTY INTEREST**

The Governor completed action on all bills sent to him by the Legislature on Saturday, September 30, 2006. Bills of particular interest to the County which were signed or vetoed by the Governor on or after September 27, 2006 are discussed below:

Key bills which were signed by the Governor include **AB 1368 (Karnette)** regarding workers' compensation, **AB 1634 (McCarthy)** on special statewide election reimbursement, **AB 1799 (Umberg)** on reimbursement for elections proclaimed by the Governor, **AB 1920 (Chan)** on Medi-Cal Hospital Financing Waiver payments, **AB 2951 (Goldberg)** on public utilities charges to public agencies, and **AB 2987 (Nuñez)** on statewide franchising authority for cable or video.

Key bills vetoed by the Governor include **AB 1873 (Torrico)** regarding safe surrender of infants, **SB 1320 (Cedillo)** on a pilot co-occurring disorders court, and **SB 815 (Perata)** on workers' compensation payments.

The summaries of these key bills are provided in the following section. Also, the final status of all County interest bills is shown in the attached roster (Attachment I).

**County Advocacy Bills**

**County-supported AB 32 (Pavley and Nuñez)**, which enacts the California Global Warming Solutions Act of 2006 to require the California Air Resources Board to adopt regulations on or before January 1, 2008, establishing a program to require the reporting and verification of statewide greenhouse gas emissions, develop an emissions baseline, and monitor and enforce compliance with emission limits on greenhouse gases, was signed by the Governor on September 27, 2006.

**County-supported AB 158 (Bermudez)**, which creates the Special Railroad Safety Task Force and requires it to meet monthly from January 2007 to December 2007 to study certain railroad safety issues, including vandalism, transporting hazardous waste, and identifying threats from terrorism, deficiencies in current land use planning and deficiencies for responding to railroad emergencies, and make recommendations for improving railroad safety, was signed by the Governor on September 29, 2006, and becomes effective immediately.

**County-supported AB 450 (Yee)**, which requires the Governor's Office of Emergency Services to incorporate the California Animal Response Emergency System (CARES) program into California's Standardized Emergency Management System to address the needs of animals in the event of a natural disaster was signed by the Governor on September 29, 2006.

**County-supported AB 1056 (Chu)**, which would have established the Tolerance Education Pilot Program for the promotion of public school instruction on tolerance and inter-group relations, was vetoed by the Governor on September 28, 2006. In his veto message, the Governor indicated that AB 1056 was largely duplicative of current efforts to teach about tolerance and human rights and that the State Board of Education has adopted a model curriculum for human rights and genocide, which is available to all schools.

**County-opposed AB 1368 (Karnette)**, which exempts public safety employees from certain elements of the workers' compensation reform provisions enacted by SB 899 of 2004 related to the apportionment of permanent disability and certain presumptions, was signed by the Governor on September 30, 2006. In his signing message, the Governor raised concerns that law enforcement officers and other first responders to the September 11<sup>th</sup> attacks had not received adequate medical treatment and therefore directed the Division of Workers' Compensation to review California's workers' compensation laws to ensure such treatment was made available to that group.

**County-supported AB 1550 (Arambula and Karnette)**, which enhances the management and oversight of the California Enterprise Zone Program and other geographically-targeted economic development area programs by making a number of

changes to zone selection, administration, and oversight procedures for these programs, was signed by the Governor on September 29, 2006, and becomes effective immediately.

**County-supported AB 1559 (Frommer)**, which enhances the focus of State Bond funding on the creation of new parks and facilities in the most densely populated areas in the State where there is a significant lack of open space, recreation areas, and places for children to play, was signed by the Governor on September 27, 2006.

**County-supported AB 1634 (McCarthy)**, which reimburses \$38.8 million to California counties, including \$9.07 million to Los Angeles County, for the costs associated with the special statewide election held in November 2005, was signed by the Governor on September 29, 2006, and becomes effective immediately.

**County-supported AB 1799 (McCarthy)**, which requires the State to pay for expenses incurred on or after January 1, 2006, and until January 1, 2007, for elections proclaimed by the Governor to fill a vacancy in the office of State Senator or member of the Assembly, or to fill a vacancy in the office of the United States Senate or Representative in Congress, was signed by the Governor on September 29, 2006, and becomes effective immediately. When an election proclaimed by the Governor is consolidated with a local election, AB 1799 also requires the State to pay only those additional expenses directly related to the election proclaimed by the Governor.

**County-opposed AB 1873 (Torrico)**, which would have raised the age at which an infant can be safely surrendered from 72 hours to up to 30 days, was vetoed by the Governor on September 30, 2006. In his veto message, the governor indicated that he shared concerns raised by experts that this bill would put newborns at greater risk by keeping them in an unsafe environment without proper care and supervision, and stated that the current 72 hour timeframe is supported by research and statistics that indicate that most neonaticide occurs within the first day. The veto message is attached (Attachment II).

**County-supported AB 2237 (Karnette)**, which requires that the annual report to the Legislature from the Director of the Governor's Office of Homeland Security include a component pertaining to the protection of the State's harbor and port facilities and the commercial marine transportation sector from terrorist attacks, was signed by the Governor on September 27, 2006.

**County-supported AB 2280 (Leno)**, which extends the authority of health care providers to treat partners of persons with gonorrhea or other sexually transmitted diseases, in addition to chlamydia, was signed by the Governor on September 29, 2006.

**County-supported AB 2836 (Karnette)**, which would have required residential care facilities for the elderly, licensed as of January 1, 2010, and with four or more clients or residents, to have an automatic fire sprinkler system by January 1, 2014, and facilities licensed on or after January 1, 2010, to have an automatic fire sprinkler system on the date of licensure, was vetoed by the Governor on September 30, 2006. In his veto message the Governor indicated that while he appreciated the author's intent to mitigate injuries and fatal fires in small residential care facilities, the bill could place a significant economic impact on residential care providers and may result in fewer facilities available to serve the elderly.

**County-sponsored AB 2870 (De La Torre)**, which allows testing of inmates for Hepatitis B and C in addition to HIV and AIDS when law enforcement employees, including prosecutors, public defenders, and staff, are exposed to such communicable diseases through contact with an inmate in locations including a courtroom, was signed by the Governor on September 30, 2006.

**County-supported AB 2889 (Frommer)**, which requires health care services plans and health insurers to permit a person who has been covered for at least 18 months under an individual plan contract to transfer at least once a year, without medical underwriting, to any other individual plan contract with equal or lesser benefits offered by the same health care service plan or insurer, was signed by the Governor on September 30, 2006.

**County-opposed AB 2951 (Goldberg)**, which changes the "nondiscriminatory" way public utilities charge public agencies for capital costs, which would effectively relieve the Los Angeles Department of Water and Power (LADWP) of its current legal duty to charge the County only its pro-rata share of LADWP capital costs, was signed by the Governor on September 30, 2006.

**County-opposed AB 2987 (Nuñez)**, which creates a statewide franchising authority for the provision of video services by phone or cable companies to be administered by the California Public Utilities Commission (CPUC) and makes the CPUC the sole video franchising authority in California, which could negatively impact the \$4 million the County currently collects from managing public rights-of-way, was signed by the Governor on September 29, 2006.

**County-supported AB 2911 (Nuñez and Perata)**, which establishes the California Discount Prescription Drug Program in the California Department of Health Services for prescriptions dispensed to recipients on an outpatient basis, was signed by the Governor on September 29, 2006.

**County-supported SB 148 (Scott)**, which provides additional bases for the suspension or revocation of an alcoholic beverage license when a licensee fails to take reasonable steps to correct objectionable conditions on the licensed premises or on any public sidewalk abutting the licensed premises after specified notice from the district attorney, city attorney, or a county counsel, was signed by the Governor on September 29, 2006.

**County-supported SB 257 (Chesbro)**, which authorizes the California Housing Finance Agency (CHFA) to make loans to finance various forms of affordable housing, including supportive housing for those with special needs, such as persons with mental illness or disabilities who are at substantial risk of homelessness; and requires the CHFA to present a plan to the Legislature for the development, acquisition, construction, and rehabilitation of 10,000 additional units of supportive housing, using up to \$75 million annually in funding from the Mental Health Services Act as leverage to finance the capital costs of the projects, as provided for under an executive order from the Governor, was signed by the Governor on September 29, 2006.

**County-supported SB 308 (Simitian)**, which would have allowed counties the option, upon adoption of a resolution by a county board of supervisors, to increase recording fees on real estate documents up to \$2 to fund programs to deter, investigate, and prosecute civil proceedings involving the financial abuse of elder and dependent adults through fraudulent real estate transactions, was vetoed by the Governor on September 30, 2006. In his veto message, the Governor indicated that SB 308 is premature because any legislation on this subject should take into account the recommendations of the forthcoming Office of Emergency Services report on elder financial abuse, and that the fee authorized by the bill is a special tax that should be subject to a vote of the people.

**County-supported SB 739 (Speier)**, which establishes the Hospital Infectious Disease Control Program implementing various measures relating to disease surveillance and prevention of health care associated infections, was signed by the Governor on September 28, 2006.

**County-supported SB 1288 (Cedillo)**, which would have increased the scope of benefits and reimbursement rates contained in Drug Medi-Cal in order to provide access to an appropriate continuum of care for youths from 12 to 20 years of age suffering from substance abuse disorders, was vetoed by the Governor on September 29, 2006. The Governor stated in his veto message that while he supports efforts to help those recovering from drug addiction, he cannot support a bill that would substantially expand Drug Medi-Cal services and result in millions of dollars of new State costs.

**County-supported SB 1320 (Cedillo)**, which would have required that \$150,000 allocated to Los Angeles County by the California Department of Alcohol and Drug Programs in the Budget Act of 2006 be used to fund a pilot co-occurring disorders court,

and specified that eligible participants include those with a history of substance abuse or mental illness who are facing nonviolent felony criminal charges in Los Angeles County, was vetoed by the Governor on September 29, 2006. In the Governor's veto message, he stated that the bill would not provide the County with any new authority to start a program, and would actually remove flexibility from the County when it allocates funding from the Comprehensive Drug Court Implementation Act.

**County-supported SB 1469 (Cedillo)**, which requires a county juvenile detention facility, beginning January 1, 2008, to notify a county welfare department when a juvenile is incarcerated for 30 days or longer so that the county welfare department can determine if the juvenile will be eligible for Medi-Cal or the Healthy Families Program on release from custody, was signed by the Governor on September 29, 2006.

**County-supported SB 1520 (Ducheny)**, which clarifies that the five University of California academic medical centers and the County's five public hospitals are treated as a "system" rather than on a facility specific basis for the purposes of allocating Medicaid funds under the Hospital Financing Waiver, to the extent that payments do not exceed the sum of individual hospital payments, was signed by the Governor on September 29, 2006, and becomes effective immediately.

**County-supported SB 1596 (Runner)**, which establishes the Nurse-Family Partnership Program and requires the California Department of Health Services to make grants available to counties to provide voluntary visiting nurse services to first-time pregnant, low-income mothers, their children and their families, was signed by the Governor on September 30, 2006.

**County-supported SB 1773 (Alarcon)**, which augments the Emergency Medical Services Fund by allowing counties to collect an additional \$2 penalty assessment on every \$10 penalty for all criminal offenses and moving violations, and requires that 15 percent of the funds collected be used to fund all pediatric trauma centers throughout a county electing to adopt the additional penalty assessment, was signed by the Governor on September 30, 2006. In the Governor's signing message, he stated that the measure strikes an appropriate balance by providing local discretion and requiring local governments to first demonstrate that an increase in fines will not reduce funding for other vital programs, such as victim restitution and police training, which rely on the same source of revenue.

**County-supported SB 1835 (Florez)**, which would have prohibited a city or county from determining that a solid waste facilities permit application is complete if the solid waste facilities permit is approved through an initiative, unless the facility was consistent with existing State, local and Federal laws, was vetoed by the Governor on September 29, 2006. In his veto message, the Governor indicated that the bill establishes permitting impediments for landfills approved by local initiative not required for landfills approved through other local processes.

**AB 2470 (Ridley-Thomas)**, which authorizes the Los Angeles County Board of Supervisors to develop a master plan for the provision of health care services in the County, and to establish a task force to address specified issues, was signed by the Governor on September 27, 2006. The Governor indicated that he was signing the bill in recognition of the exceptional challenges currently facing the Los Angeles County health care delivery system and to encourage the County to develop a comprehensive, long-term plan for the County's health system. The Governor's signing message is attached (Attachment III).

**AB 2863 (Karnette)**, which authorizes boards of supervisors in 1937 Act Counties to establish a trust fund with the board of retirement to fund post-employment benefits provided under group health, life or other welfare benefits established or maintained by the County, was signed by the Governor on September 30, 2006, and becomes effective immediately. Contributions to the fund may include direct payments or proceeds of debt. Los Angeles County is not authorized to establish the fund until it is agreed to pursuant to a ratified collective bargaining agreement. This bill would also allow the Los Angeles County Fire Chief to continue employment beyond the mandatory retirement age.

**SB 1534 (Ortiz and Alarcon)**, which affirms the rights of cities and counties to provide nonemergency health care services to undocumented persons, was signed by the Governor on September 30, 2006.

We will continue to keep you advised.

Under this bill, Medi-Cal providers would have the option of notifying Medi-Cal beneficiaries of approaching due dates for these required reports using information from the automated system. AB 783	Jones	Support (State Update: 4/1/05)	Would require the State to pay for expenses incurred by local governments in the preparation and conduct of elections proclaimed by the Governor in 2005 to fill a vacancy in the office of State Senator or Member of the Assembly, or to fill a vacancy in the office of United States Senate or Representative in Congress. Chapter 714 of 2005
AB 802	Wolk	Oppose (State Update: 4/7/06)	NOW: Was amended to delete the 200-year flood hazard mapping requirement and replace it with another hydrologic analysis and mapping task related to flood control. Specifically, the bill would: 1) require the land use element to identify and annually review those areas covered by the general plan that are subject to flooding; 2) the conservation element of the general plan to identify rivers, creeks, and streams, flood corridors, riparian habitat, and land that may accommodate floodwater for purposes of groundwater recharge and stormwater management; and 3) the safety element to identify information regarding flood hazards and establish a set of comprehensive goals, policies, and objectives, based on specified information for the protection of the community from, among other things, the unreasonable risks of flooding. In addition, the bill would require local governments to establish policies that require local new essential disaster response facilities (i.e. hospitals and shelters) to be located outside of flood hazard zones.  PREVIOUSLY: Would have required local governments to include flood management in the conservation and safety elements of their general plans, including a 200-year flood hazard mapping instead of a 100-year flood hazard mapping.	Died in Senate

<u>BILL</u>	<u>AUTHOR</u>	<u>POSITION</u>	<u>SUBJECT</u>	<u>STATUS</u>
AB 856	Bass	Support (Board Action: 4/19/05)	Would add the Director of the Department of Conservation, or his or her designee, as a non-voting member of the Baldwin Hills Conservancy (BHC) board, make changes pursuant to the Bagley-Keene Open Meeting Act, and repeal the requirement that the BHC obtain and maintain liability insurance.	Chapter 223 of 2005
AB 862	Bass	Support (State Update: 5/12/05)	Would direct the Department of Corrections to provide information on child support modification orders to every inmate who is a parent of a minor. The Department of Child Support Services would develop the information and provide it to the Department of Corrections for distribution. <u>BILL</u>	<u>AUTHOR</u>	<u>POSITION</u>	<u>SUBJECT</u>	<u>STATUS</u>
AB 2987	Nunez	Oppose Unless Amended to: clarify language to avert reductions of local government (locals) franchise and property tax revenues attributable to possessory interests; require PEG channels; affirm the authority of locals to control the use of public rights-of-way; provide a mechanism for locals to enforce consumer protection; and address build-out requirements and standards (State Update: 4/21/06)	Would create a statewide franchising authority for the provision of video services by phone or cable companies to be administered by the Public Utilities Commission (PUC), which would become the sole franchising authority in the State. This bill would permit current franchisees to apply for State-issued franchises when their current agreements expire or when a phone company declares its intent to provide service in areas currently served by cable companies, require municipalities to permit the installation of networks by holders of State-issued franchises and preclude enforcement of local consumer protection standards by counties and cities. Under existing franchise agreements, which are monitored by the County's Department of Consumer Affairs, the County manages public rights-of-way, collects approximately \$4 million annually through a five percent fee on gross revenues, imposes Public, Educational, and Governmental (PEG) channel requirements, and protects consumer interests. This bill does not protect consumers at a level equal to the County's protections for cable subscribers, only states an intent to protect the County's franchise revenues, and has inadequate penalties for effective enforcement. Further, the bill specified that the employer may not use the American College of Occupational and Environmental Medicine Guidelines to delay, dispute, or limit any medical treatment provided after 90 days from the date of the injury	Died in Senate
AB 3042	Evans	No Position  Oppose Unless Amended to exclude the City of Industry (State Update: 4/20/06)	NOW: Still does the same but was amended to exclude the City of Industry.  PREVIOUSLY: Would have provided an additional procedure by which a city or county may enter into an agreement to transfer a percentage of its share of the regional housing needs to another city or county. Existing law exempts the City of Industry from adopting a Housing Element that would otherwise require the City to provide new housing and its share of regional housing needs, if it transfers 20 percent of the City's total tax increment revenue that is required to be set aside for low-and moderate-income housing to the Housing Authority of the County of Los Angeles (HACoLA) to administer low-and moderate-income housing. This bill would have jeopardized HACoLA's authority over the City of Industry Funds.	Died in Senate

To the Members of the California State Assembly:

I am returning Assembly Bill 1873 without my signature.

California's Safe Surrender Law provides an emergency alternative for a woman in crisis who, statistics show, may otherwise abandon, abuse, or kill her baby. The current 72-hour period contained in California statutes allows for a "no questions asked" safe surrender of a newborn and is supported by research and statistics that indicate that most neonaticide occurs within the first day. Some experts have raised concerns about this bill, which I share, that instead of improving child safety, increasing the time that a baby may be surrendered from 72-hours to 30-days, will have the opposite effect, putting newborns in greater risk by keeping them in an unsafe environment without proper care and supervision.

For these reasons, I am returning this bill without my signature.

Sincerely,

Arnold Schwarzenegger

To the Members of the California State Assembly:

I am signing AB 2470 in recognition of the exceptional challenges currently facing the Los Angeles County health care delivery system and to encourage the county to develop a comprehensive, long-term plan for the County's health care system.

Los Angeles is home to California's largest uninsured population. The County's health care system faces considerable pressures to maintain access to essential services in both its public and private health care institutions. Issues of quality care have also been a problem, as seen most notably at the Martin Luther King Jr./Drew Medical Center. The breadth of these challenges underscores the need for Los Angeles to develop a comprehensive health care plan. AB 2470 would, subject to LA County Board approval, require the County to convene a taskforce to develop a long-term health plan. Such a plan will provide a useful mechanism for Los Angeles County to better understand its health care financing and delivery challenge and help identify creative and innovative public/private sector strategies to preserve community access to quality essential services.

Sincerely,

Arnold Schwarzenegger
